

**AMENDMENTS TO THE ABSTRACT OF THE DISCLOSURE**

Please enter the following Abstract of the Disclosure in the record:

An egg tray for a refrigerator, having a support plate, in which a plurality of openings, each for receiving one egg, is formed. A wall, surrounding the support plate, is divided into several wall sections, separated by recesses. A handle protrudes from said support plate above the centre of gravity thereof. Said egg tray can be stacked pairwise due to a slit in the support plate.
